Executive Summary

There are many positive things about the services that Derby Homes provides. We are an organisation with ambition and drive and have a proud history of achievement. We are committed to listening to our customers, being responsive and supporting our customers and communities to achieve the best outcomes to meet their needs.

The last two years has been challenging for all sectors, as we work to respond to and recover from the COVID-19 pandemic. This has also presented us with many opportunities. We have looked for new ways to work together across the city with the Council and partners by recognizing that as one we can deliver more – **we are better together**. We have delivered at pace, focusing on our communities first, and have been creative to deliver better outcomes.

This year we have taken the decision to change the format of our Delivery Plan, seeking to ensure that we mirror four key focus areas of the Council, this change will show at the highest level how Derby Homes is working to improving outcomes with the city, for the city.

We are also seeking to be as efficient and effective as we can, **working smarter**, to deliver value for money for our customers and stakeholders.

There are however significant challenges to maintaining our services. The impacts of the pandemic have increased demand and had an impact on many of our services. Our focus is to work with the Council and other partners to meet these challenges and continue improve services and outcome for our customers.

It is also important that we recognise the requirements within the Housing White Paper, the focus on high service standards and proactive regulation of the sector, the emphasis being on what matters to tenants the most. And of course, the Housing Safety Act 2022, legislation which will come into force over the next 12-18 months, rightfully designed to ensure that tenants live in safe, well-managed homes. These considerations and actions have been woven into the Delivery Plan and translated into our desired outcomes. There is a separate working action plan in relation to our wider review of the Consumer Standards.

We also need to concentrate on our employees, they are the reason that Derby Homes is a high performing organisation and over the course of the next few years we need to recognise that they, along with our customers will face the economic, social and wellbeing challenges that the Country faces as we emerge from a global pandemic.

Derby Homes – Delivering for Derby

The table below shows the Council's key outcome areas and briefly outlines how Derby Homes will make a positive contribution. There is more detail in the theme led sections later in this document.

GREEN CITY

For a compact city we have a lot of green spaces. In the face of climate change, we will lead communities and partners to make a difference.

We will work together as a city to tackle the climate change emergency, promoting more sustainable ways of living, in particular aiming to make our homes, greener, warmer, and more affordable for our tenants.

CITY OF GROWTH

Our city is home to some significant employers, and we have a strong history of manufacturing and innovation. We want to diversify and grow. Our ambition is to be a smart, super connected city that has the right skills, jobs, and space for the future.

We will continue to support individuals through our successful apprenticeship scheme, working with schools and colleges to promote this as an opportunity of choice. Working with partners we will encourage opportunities for our tenants to enter employment and training.

VIBRANT CITY

Derby is a historic city and a UNESCO world heritage site. We are putting culture at the heart of the city, reinvigorating our city centre, and developing our cultural offer.

We will work with our partners to ensure that culture is accessible to all our communities and encouraging our offer to be reflective of our citizens needs and desires.

RESILIENT CITY

There are over 4,000 community and voluntary groups in Derby. Building on our strong sense of pride and community, we're determined to reduce inequalities and improve health and wellbeing across the city, unlocking the potential within our communities.

We are well placed within communities, supporting some of our most vulnerable citizens to access opportunities helping them to unlock their individual potential.

Mission, Values and Strategic Objectives

Mission

Our mission is to provide

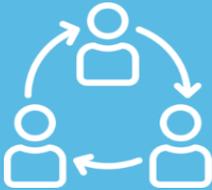

“High quality services for people, homes and communities”

This supports the Council’s vision for Derby, to be

“Better together... better outcomes for the city, with the city”

Values

Our core values are clear in everything we do, and how we operate. We expect our Board and employees to follow our core values, which serve as guidelines for our conduct and behaviour to help us achieve our mission.

<p>Engagement Customers are represented at every level of our organisation.</p>	<p>Equalities We strive to understand and enable personalised solutions that meet the needs of our communities.</p>	
<p>Excellence We pride ourselves in striving for excellence.</p>	<p>Good Employer We value our employees.</p>	<p>Integrity We are open and honest, and we aim to keep our promises.</p>
<p>Learning We improve our services by listening to feedback and learning from others.</p>	<p>Value for Money We manage our services efficiently, effectively, and economically.</p>	<p>Work Safely We prioritise health and safety for customers and staff.</p>
<p>Attitude We embrace a culture that puts our customers first, adopting a practical and innovative approach to delivering our services.</p>	<p>Resilience We adapt to changing situations, with a clear focus on prioritising what our customers need.</p>	<p>Co-delivery We recognise the strength of effective partnerships.</p>

This Plan and our Strategic Objectives gives Derby City Council assurance that we are delivering across all areas of our Management Agreement for housing services on their behalf.

Our strategic objectives:

	Strategic Objective 1	Service that puts our customers first
	Strategic Objective 2	Quality homes and contributing to sustainable communities
	Strategic Objective 3	Reducing homelessness and enabling access to affordable housing
	Strategic Objective 4	Value for money is a consideration in everything we do

Performance Management Framework

Performance measures are helpful to manage services appropriately and to spot trends and take effective action to counteract any emerging issues and help to meet objectives. We will ensure oversight on performance through:

- Discussions at service team level via team meetings, one to one's etc
- Review of KPI's at Senior Management Team meetings
- Quarterly reporting through to Operational Board and main Board
- Reporting to the Strategic Partnership Board (DCC & DH) on Delivery Plan progress and by exception, any wider issues relating to changes required to the Partnership Agreement.

A detailed summary of key performance measures for 2022/23 can be found at Appendix 1.

Better together – delivering for Derby #TEAMDERBY

To ensure that we are focused on the right things this section of our Delivery Plan highlights where we will work collaboratively to delivery better outcomes for the city. We are **focusing on outcomes** because, whilst objectives or actions are often easier to achieve, outcomes will enable us to focus on making a real difference for our city and citizens. Our more detailed actions and progress against them will be measured through our service plans and commentary will be provided through our established reporting framework to the Board and Council.

Our delivery is focused on a targeted number of must dos, each sitting alongside the Council's key outcome objectives. A summary of our key priorities and the differences we are seeking to make are set out on the following pages.

This plan sits alongside our Medium-Term Financial Strategy and Asset Management Strategy which sets out how we are going to use our resources to achieve outcomes. Our Risk Register sets out the threats that we have identified that could stop us from achieving our goals if not mitigated, alongside any opportunities that we may seek to take.
